

Dear

Thank you for your commitment to our WAVE program. Pet's name was an important friend who we know brought many years of companionship to you and yours. Your generosity and thoughtfulness in his/her memory will now make it possible for pet's name to impact the future of veterinary care for generations of animals. Donations to the WAVE program help veterinary students learn essential knowledge and skills in anatomy, pathology, medical imaging and surgery.

We all have experienced the loss of a family pet as you are today; our thoughts are with you during this difficult time. Please know that the pain does ease, and our hope is that it will be replaced with happy memories of a wonderful friend.

The College of Veterinary Medicine produces a quarterly publication, *The Outlook*. In this publication we feature a section *Always In Our Hearts: Stories from the W.A.V.E. Program*. In this segment we print a story, along with a photo, that has been written by an owner about their beloved pet and why they decided to donate to our program. If you are interested in submitting a story about pet's name, the section can accommodate approximately 275 words; this is dependant on the size of the picture you submit to accompany your story. You are welcome to send your story and photo either by postal mail, or email to me, at the contact information provided below. I will return the original photo submitted, as well as send you the edition of *Outlook* that features your story.

Once again thank you,

CVM Students, Faculty and Staff

Most sincerely,

Tami Miller
